

***Amendments to the Claims***

This listing of claims will replace all prior versions, and listings, of claims in the application.

***Listing of Claims***

1. (original): A system for handling résumé graphic files, comprising:  
  
a server being configured to receive, via HTML, fields for at least contact information, and résumé graphic files which maintain the appearance, format information, and font information of original documents; and  
  
a client machine in selective communication with the server, the server being configured to communicate to the client machine a résumé graphic file upload request, the client machine being configured to selectively transmit via HTML, to the server, some of the fields of the contact information and a résumé graphic file.
  
2. (original): A system for handling résumé graphic files, comprising:  
  
a server being configured to receive, via the World Wide Web, fields for at least contact information, and résumé graphic files which maintain the appearance, format information, and font information of original documents; and  
  
a client machine in selective communication with the server, the server being configured to communicate to the client machine a résumé graphic file upload request, the client machine being configured to selectively transmit via the World Wide Web, to the server, some of the fields of the contact information and a résumé graphic file.

3. (original): A system for handling résumé graphic files, comprising:

a server being configured to receive, via the World Wide Web, fields for at least contact information, and résumé graphic files which maintain the appearance, format information, and font information of original documents; and

a client machine in selective communication with the server, the server being configured to communicate to the client machine instructions for transmitting résumé graphic files, the client machine being configured to selectively transmit via the World Wide Web, to the server, some of the fields of the contact information and a résumé graphic file.

4. (original): A system for handling résumé graphic files, comprising:

a server being configured to communicate, via the World Wide Web, instructions for transmitting fields for at least contact information, and graphic files which maintain the appearance, format information, and font information of résumés; and

the server being further configured to receive, via the World Wide Web, fields for at least contact information, and the graphic files.

5. (original): A system for handling résumés, comprising:

a server being configured to receive, via the World Wide Web, fields for at least contact information, the server being further configured to receive appearance, format information, and font information of the résumés; and

a client machine in selective communication with the server, the server being configured to communicate to the client machine instructions for transmitting appearance, format information, and font information of the résumés, the client machine being configured to selectively transmit, to the server, via the World Wide Web, the appearance, format information, and font information of the résumés, and one or more fields of the contact information.

6. (original): A system for handling résumés, comprising:

a server being configured to communicate, via the World Wide Web, instructions for transmitting appearance, format information, and font information of the résumés; and

the server being further configured to receive, via the World Wide Web, the appearance, format information, and font information of the résumés, and fields for at least contact information.

7. (original): A method for handling résumés, comprising:
- transmitting, via the World Wide Web, instructions for transmitting appearance, format information, and font information of the résumés; and
- receiving, via the World Wide Web, fields for at least contact information, and the appearance, format information, and font information of the résumés.
8. (new): A system for handling résumé graphic files in accordance with claim 1 wherein the résumé graphic files are of EPS format.
